
How to Implement the BRC Standard - Storage & Distribution 1-Day

The storage and distribution of food, consumer products and packaging materials is often an overlooked part of the retail supply chain. This element of the supply chain is critical for maintaining the safety and quality of products and compliance with EU Regulations. Any incorrect handling, storage and distribution can seriously affect the safety and quality of products sold through retailers.

COURSE CONTENT

This Standard supports the food sector, packaging suppliers and consumer product manufacturers and the training course covers the following areas

- In-depth review of the Standard
- The evaluation process
- A review of the separate modules for the different sectors within the chain, namely storage, distribution, wholesaling and contracted services offered by storage companies their implementation.
- Training exercises to ensure understanding of how non-conformances are raised and the corrective action expected to ensure satisfactory closure, to achieve certification.

BENEFITS TO YOU AND YOUR BUSINESS:

The new Global Standard - Storage and Distribution has been developed to provide assurance to business and consumers that the highest of standards have been observed at all stages, from the producer to the retailer's checkout.

WHO SHOULD ATTEND:

This course is suitable for technical staff directly involved in compiling or overseeing the compilation of BRC paperwork.

LOCATION:

Cork, Dublin, Dundalk

PRICE

€ 560
